By Matt Richardson

T. C. Northcott, 95, of Luray, Va., Retains

Fondness for Elmira DECENTLY Col. T. C. Northcott, former Elmiran, remembered by some of our older citizens, now of Luray, Va., celebrated his 95th birthday anniversary. . . . For years Mr. Northcott was of Smead & Northcott, a local concern that specialized

ventilating, at the present location of the miles of subterranean splendor electrically

Matt Richardson der a great hill in Shenandoah Valley. . . They consist of many large rooms, connected by natural corridors A small map of the cave resembles somewhat the web of a spider. . . . They are the largest caves east of Kentucky and the most entrancing in the world. . . . In memory of Mrs. Northcott, the Colonel presented Luray with the Luray Singing Tower, a massive 117-foot stone shaft, wherein is contained carillon of 47 bells.... The imposing structure, discernible from the surrounding hills for many miles, abides in a jeweled setting, surrounded by quiet vales, the cultural advantages available to all, the man who toils in the the highways. . . . There, twice each day, concerts are given. . . .

IN ELMIRA, Col. Northcott resided on W. Gray St., the preshome of Mr. C. Jameson...He kept versed in fancy steps....Col. Northcott and the late J. Sloat Fassett years ago were promastride in meticulous riding habits on the streets of Elmira and bridal paths skirting the city. . . . Now, in his palatial southern home, Mr. Northcott has the fondest memories of the old town.... He lingers over the names of old friends, nearly all gone now, unable to keep pace with his rather exceptional longevity. . . . Col. Northcott is well and happy, wonderfully groomed even to an initialed handkerchief, with rolled edge, protruding from the breast pocket of his coat. . . . He visits the cavern offices each morning. . In the evening he entertains friends in his spacious home. Col. Northcott these occasions seeks recreation with his around his billiard table in the game room. .It isn't often one sees a nonogenarian climb upon these tables to execute difficult shots. . . . Col. Northcott does it. . . Noted for his philanthropy and civic interest, Col. Northcott has another first to his credit. . . . He is the first man in the world to

air condition his home. . . . A conditioning is not new today, by back in 1901, when the Northcot home was erected, it was some

thing to concern ones bout ... The system has been oper ation for nearly 30 years, and its many unique features make it an interesting installation even today, as of course it has a right to be for Col. Northcott is a ventilating engineer by profession. . One of his theories was the filtration of air through limestone. . . . The system is exceptionally healthful and aseptic, as it still exists after so many

THE HOUSE was built on top of a hill above the Luray caverns and so it is possible to circulate cave air throughout. . . . The difference between this installation and others is that the Northcott home was built about the air-conditioning system. contrast to the present practice of applying the system to the building. . . . Reminds me of something the late Leonard Whittier once told me, that in erecting his pretty Hoffman St. residence, he drew a picture of his large, beautifully toned pipe organ on paper, and told architects to construct a house around it Col. Northcott's charming daughter, Mrs. Catherine Northcott Graves, a widow, and her son, Theodore, reside with their father and grandfather. . . . Mrs. Graves, as a young girl attended the erstwhile Park Place School, Elmira College preparatory institution. . . . She recounts these happy days, as if they were of yesterday. . . . The impressions never have been dulled by the

A N ELMIRAN recently returned from a visit to Luray. where she was a house guest of the Northcotts, speaks in glowing terms of their wonderful hospitality. . . . At the dinner table. Col. Northcott takes charge o the conversation, recounting interesting anecdotes which he brings out of the past. . . These tales are punctuated th sparkling humor, causing one to regret when the dinner is ended after lingering over the demi . . . Following the Civil War in which Col. Northcott served with the Union Army, he became a school teacher while continuing his education under private tutors. . . . He was graduated from the Chicago Theological Seminary and became a Congregational minister, continuing the religious pursuit for nine years. . . At the expiration of this period his orthodoxy was attacked, and despite the fact his congregation stood by him, he decided life would be freer from contention if he resigned. . . . It was then he took up engineering and entered business. . . . In 1900 he retired and went to Luray. where a little later he purchased the Luray Caverns.
